“VERILY, THEY (THE KUFFAAR) PLOTTED THEIR CONSPIRACIES, AND THEIR PLOTS ARE BY ALLAH (i.e. He is fully Aware of their plots).

***UNDOUBTEDLY, THEIR PLOTS ARE SUCH AS TO CAUSE MOUNTAINS TO MOVE (from their locations).”
(Qur’aan –Surah Ibraaheem, Aayat 46)***

NOTE:

UCCSA DOES NOT NECESSARILY AGREE WITH ALL THE COMMENTS OF SHAIKH NABEEL NAIEM.

There is much food for thought in the two articles compiled in this booklet. May Allah Ta’ala save the Ummah from the dark conspiracies of the kuffaar plotters and from the vile treachery of their surrogates parading as ‘champions of Islam’.

The Shaikh says: *“They fool you; they keep fooling you, and they enjoy fooling you, not because they’re smart, but because you are foolable.”*

ALLAH KNOWS BEST!

ISIS: The Bombshell Interview to Impeach Obama

The author found some difficulties in finding a proper title for this post, which is based on a TV interview with the founder of Jihadist movement in Egypt and a former top Al-Qaeda commander. Each line of the interview is a title by itself, each piece of information is more than enough to put tens of western officials and their regional stooges behind bars for long times, those who are acting as the Humanitarian Bastards crying for the suffering of the innocent they only inflicted their suffering.

Finally, I decided to post the text of the interview as it is without my usual adding in noting how the western citizens are played by their governments, so I'll leave you with the interview conducted by pan Arab Al-Maydeen TV with Sheikh Nabeel Naiem, who was introduced by the TV presenter as: 'the former founder of Jihad Organization & expert in Islamist groups', enjoy:

The interview text:

- With us here in the studio Sheikh Nabeel Naim former founder of Jihad Organization & expert in Islamist groups, welcome.

Noting that you were in Afghanistan with Osama Bin Laden & Dr. Ayman Zawahri, in accommodation and also in prison with Dr. Ayman Zawahri, can we say now you retired from Al-Qaeda?

Nabeel Naiem: Not really, they are the ones who deviated, we went there to fight the Soviet invasion of Afghanistan, and there was almost a unanimous agreement among Islamic clerics that time on that (Jihad against Soviets), and after that they deviated and turned their activities against Islamic and Arabic countries, and they committed the prohibited which is killing Muslims, and at the same time after the death of Osama Bin Laden, Al-Qaeda turned into a mercenary (group)..

- You are one of the founders of Jihad in Egypt, and you were at the beginning times of Al-Qaeda so to speak, can a member of that rank distance himself from Al-Qaeda, leave the organization? Will the organization leave him? Some say it is not accepted in the ideology of the organization..

Nabeel Naiem: No, the organization deviated, they became Takfiris, they are killing Muslims.. Am I fighting Jihad (holy war) to go to hell or seeking heaven?!

What is the cause of Jihad? (whoever kills a believer intentionally – his recompense is Hell, wherein he will abide eternally, and Allah has become angry with him and has cursed him and has prepared for him a great punishment) [Quran 4:93]

- Did they call you a Kafir (non-believer) now?

Nabeel Naiem: The high ranks, like Ayman, no they did not, but the small lads they're the ones who consider me Kafir.

- The natural question one would ask: Why wouldn't some who consider you Kafir try to assassinate you?

Nabeel Naiem: No, I'm a legend. I have a history those same boys are astonished with my history, and they wonder why I changed, I was the cloud above those boys.

I was a solid warrior and I fought and have a horrible history whether inside Egypt or outside it, I'm not just a lad, or someone who just joined, I was everything in the organization..

I mean now after the Takfiri ideology (labeling people as Kuffar – non-believers) why nobody tried to liquidate you with this Takfiri ideology?

This is with God's grace upon me, and then I have a history.. When they get to know my history.. none of them have achieved the history I did.

- Back to the questions I understand you're telling me the main structure of Al-Qaeda does not exist anymore.. Are we talking now about schism? Can we say that (Daesh) ISIS is part of Al-Qaeda?

Nabeel Naiem: No, the old commanders have left the whole organization, only Ayman is left and around him a few we call them mentally retarded or crazy, Takfiri people.. But all the founders have left, some died and the others just left..

As for ISIS, it follows the ideology of Al-Qaeda organization, which was found by Sayyed Imam Sherif and put it in his book Al Jamei Fi Talab Al-ilm Al Sharif (Bible of Seeking Honorable Learning), & it's one of the most dangerous books circulated in the world, and it's translated to all languages by the way, Kurdish, Urdu, Persian, Turkish.. etc.

- You say that ISIS is a branch of Al-Qaeda?

Nabeel Naiem: It adopts the ideology of Al-Qaeda. ISIS was established in 2006, we created Al-Qaeda since 1989.

- Explain to me now the position of Dr. Ayman Zawahri from ISIS and Abu Bakr Baghdadi (head of ISIS), what do they consider him?

Nabeel Naiem: He (Zawahri) asked Abu Bakr Baghdadi to pledge allegiance to him (as the Emir..) but Abu Bakr Baghdadi, since he's basically a U.S. agent, told him: we are the people of cause, the cause of liberating Iraq, Syria and so.. You're the one who should pledge allegiance to us, Ayman (Zawahri) refused so there was a dispute and a fight between them.

- How he is an American agent? Explain to us how?

Nabeel Naiem: It is known that the USA released him from prison and he spent 20 to 30 million US Dollars to establish these ISIS groups and the first ISIS camps were established in Jordan, and Jordan doesn't allow camps for charity, when Jordan establish camps to train terrorist groups, it doesn't do that out of good will and charity, these camps were supervised by the

Marines, and the arming of ISIS is all American.. and how do they arrange their expenses? I was in charge of a camp for 120 men, we were spending thousands of thousands (of dollars).. food, drinks, weapons, munition, training..

- Excuse me, you're talking about ISIS? You were in charge of an ISIS camp?

Nabeel Naiem: No, I am telling you I was once in charge of a camp of 120 men and we were spending that time thousands (of Dollars), imagine how much this ISIS is spending?! Let me tell you something.. The wounded from ISIS during (terrorist) operations, are they being treated here in Lebanon? No, neither in Syria, nor in Saudi nor in Egypt, where do they go? They go to Israel. Now as we speak there are 1,500 of ISIS & Nusra (Front) are in Tel Aviv hospitals.

- From where this information?

Nabeel Naiem: Where are their wounded? Don't they have wounded? Where are they being treated? This is well known..

- They have field hospitals, and it's remarkable that they have a number of doctors in their ranks, even doctors from European countries..

Nabeel Naiem: Yes, the field doctor would only give first aid until you reach the hospital.

- You mentioned an important point about financing, I read for your a lot actually when at the beginning of Al-Qaeda when talking about Osama Bin Laden you were talking about self-financing..

Nabeel Naiem: Osama was spending by himself, but before Osama there was the International Islamic Relief Organization and the connection between us and them was Dr. Abdulla Azzam, then we had some issues with Adbulla Azzam so he cut off from us the money and expenses so we replaced him with Osama Bin Laden, and the brothers in Al-Qaeda, mainly from the GCC countries called him Emir of Arabs.

- You just mentioned that 120 members required thousands, we are talking about a structure spread worldwide, could this be understood in the context of self-financing reaching ISIS today? I'll read what the British Independent Newspaper said, it reveals there are a number of donors from Saudi who played an essential role in establishing Jihadist groups since over 30 years, that's why I ask you about the beginnings as you were there then.. It's a CIA report and it's after September 11 attacks and it suggests Al-Qaeda had relied on middlemen who collected money from Saudi & other GCC donors..

Nabeel Naiem: This is 'crab' what the Independent says, these are foolish people, a fool journalist who doesn't know what to say. First of all, the donations of GCC citizens to the Jihadist groups in Afghanistan was known and done publicly and it was advertised in newspapers and on TV, what this Independent guy adding?

I'm one of the people who took more than a thousand free air tickets from the International Islamic Relief Organization

- Please explain what are you aiming at with the International Islamic Relief Org.?

Nabeel Naiem: It was paying our expenses while we were in the Afghani Jihad, bring weapons, ammunition, training, food, drinks.. all of this we were getting from the Islamic Relief Org.. they were spending..

- This is what I meant, Islamic Relief Org. is specialized in collecting Zakat (charity) and it's in Saudi (Arabia)..

Nabeel Naiem: These are fools.. Prince Sulaiman Bin Abdul Aziz was in charge of it, it was not running loose you grab what you want and go on.. It was Saudi Intelligence and Prince Sulaiman Bin Abdul Aziz was in charge of it, it wasn't a loose charity you fill your pockets and walk, No.

Secondly, there was a hospital called Kuwaiti Crescent Hospital, it had 250 beds, it had all kinds of operations, and it had doctors employed there, money (budget), medicine, used to spend millions, it was under Kuwaiti (Red) Crescent.

So what new this Independent is telling? USA itself was supporting Hikmatyar, Who brought Stinger missiles to the Afghani Mujahideen? The missiles which badly hurt the USSR? It was brought by the USA..

- This is the point you mentioned when talking about Al-Qaeda, USA supported Al-Qaeda because it was fighting Russia, today when we come closer to this region, who supports who in favor of who? ISIS works for who?

Nabeel Naiem: Look, there's nothing constant in these matters, take for example after Russia was defeated (in Afghanistan) the Americans wanted to get rid of the Arab Afghanis, and in fact the Arab Afghanis were arrested, deported and some like us were jailed, so Al-Qaeda in Afghanistan was struck by September 11 attacks and after Osama Bin Laden's death Al-Qaeda was bought by the Qatari Intelligence, and I tell you during the International Conference of Ikhwan (Muslim Brotherhood) in Istanbul, Qatar decided to create a fund to sponsor Free Egyptian Army and paid 1 billion dollar for it, and the person in charge of this fund is Ali Kurrah Zadah, Muslim Brotherhood official in Turkey, this is the finance, not like someone says 1 sheikh is donating..!

- This is one side, what's important to know is what ISIS wants from Iraq? Is it the issue of borders? The borders strategy? Borders war? But this ideology is trans-borders it seems, how did ISIS expand from Syria into Iraq? What does it want exactly from Iraq?

Nabeel Naiem: No dear, ISIS started in Iraq, and Ibrahim Abu Bakr Baghdadi is Iraqi (national), and after that they were given camps to train in Jordan and they smuggled into Syria from Jordan and they were defeated in Syria then they moved back into Iraq once again.

As to what's happening in Iraq, it's bigger than ISIS, Mosul city has 4 million residents & it's second largest province, in Iraq there's a problem between the Arabs in Anbar and (Prime Minister) Maliki, and 'Maliki Army' who handed over their weapons had Shiite commanders, so nobody would argue ISIS and Shiites, those commanders handed over their weapons to Arab tribes but ISIS is in the headlines.

ISIS has something called Management of Savagery, a book titled Management of Savagery..

- We have shown some details about this book on our channel..

Nabeel Naiem: Abu Bakr Muhammad Maqdisi in this book has taken the same policy of Genghis Khan, thanks God they didn't claim they derived their policies from prophet Muhammad, because God said: 'There has certainly been for you in the Messenger of Allah an excellent pattern for anyone whose hope is in Allah and the Last Day and [who] remembers Allah often.' [Quran 33:21].. So their 'excellent pattern' was Genghis Khan.

Genghis Khan used to enter a village and annihilates all living in it, even animals he'd slaughter it, and burn down the houses, so the next village hears that Genghis Khan is coming they flee away and this is what ISIS is doing in Iraq, and what's the goal of ISIS? When ISIS entered Samarra they killed a thousand Sunni, and now killing Shiites, and this is the American policy.

Henry Kissinger wrote a memo in 1982 or 1984, don't remember exactly, it's titled The 100 Years War. When asked where this 100 years war will occur? He said in the Middle East when we ignite the war between the Sunnah and the Shiites.

So they're working on igniting the war between the Sunna and the Shiites, just like what Abu Mussab (Zarqawi) used to blow up Sunnah mosques then blow up Shiite mosques, to start the sectarian war in the region; and this is of course an American plot, and I tell you ISIS didn't kill a single American.

ISIS didn't behead a single American and didn't play football with his head, they beheaded Muslims and ate livers of Muslims and didn't kill a single American though it's established since 2006..

- You're talking about ISIS's brutality and ideology but it finds popularity among the youth.. and popularity among many sides and it practices the highest level of violence and brutality, can you explain to us what makes all these groups with all its diversities to join this organization?

Nabeel Naiem: It's the Takfiri ideology, the problem with this Takfiri ideology it's widely spread among the European Muslims, why?

I sat with them.. The European Muslims denounced everything they saw in Europe..

- But they also come from GCC countries and Islamic countries even..

Nabeel Naiem: I'm with you, it's spread among the Muslims in Europe and it's spread in Saudi because Wahhabism is the closest to Takfir than others. And when I sat with them I found out they have a single-sided Takfiri thinking, like

when I spoke with Sayyed Imam in the judgment against the ruler's assistants, where he said there's no ruler who can rule by himself, he must have the support of the police and army thus the police & army are all also Kuffar (infidels) like him, so I asked what about who goes to the polls to elect the ruler? He replied: He's a Kafir (infidel).

I told him: you have labeled the Army, police and the people as Kuffar (infidels), you're a Takfiri..

The religion (Islam) is not so strict, it includes prevention excuses like ignorance, circumstances, causes.. they didn't study all this, for them the ruler is an infidel that means all of those with him are infidels.. Bashar (Assad) is a Nusairi then all of those with him are Nusairis, although that the Syrian Army 90% of it is Sunni, because that's the Sunni percentage of Syrians.

But they are one-sided thinking and they're ignorant..

- Ignorant in what sense?

Nabeel Naiem: Ignorant of the religion (Islam). I was living with Ayman (Zawahri), Ayman is ignorant, he wasn't saying anything without consulting me first..

- In spite that you mentioned that Ayman Zawahri was refusing at one stage of time to accept the Takfiris (in Al-Qaeda)..

Nabeel Naiem: Yes, we were the ones who didn't allow them. I told him: If your brother Muhammad joins the organization we will dissolve it because your brother is Takfiri. So he agreed until we entered jail and we're separated, his brother came in and took over the whole organization, and his brother is retarded actually, he's Takfiri and retarded, if you talk with him you feel you're talking with someone who is brainless..

- That's what's strange as I mentioned we're talking about different segments of societies from different countries and even from different education levels, we see PHD holders, how do you call all of these ignorant?

Nabeel Naiem: Ignorance in religion is something and being a doctor is something else.. I'll give you an example. If I'm a doctor in a clinic, and with me is a nurse, and for 30 years he will be with me, will he become a doctor after 30 years?

Will this nurse become a doctor after 30 years being a nurse?

- This is as a description, right?

Nabeel Naiem: They're like this, they educate themselves by themselves, they're like the nurses, they'll never become doctors. I am specialized in Islamic Sharia, for me he's ignorant, ignorant in the religion, he doesn't understand the religion.

- We should explain, you're talking about Jihad? Salafist Jihad or Takfiris? These are the segments?

Nabeel Naiem: Yes, they're ignorant..

- All of them?

Nabeel Naiem: I argued with their top sheikh (cleric) – Salafists, Salafist Jihadist and Takfiris, these are 3 different samples, all of them are ignorant? They're not different they're all ignorant, I was living with Sayyed Imam Sharif, he's the international founder of the whole ideology spread in the region from Jakarta to Nouakchott (in Mauritania), he wrote them a book titled 'Al Jamei Fi Talab Al-ilm Al-Sharif (Bible in Seeking Honorable Learning), this book is the manifest and ideology of all the Takfiri groups like ISIS, Nusra Front, Ansar Bet Maqdas (Jerusalem House Supporters), Salafist Jihadist, and all of those you can imagine, and nobody wrote after the book of Sayyed Imam (Sharif). I debated with Sayyed Imam and debated with him about a lot of matters, he told me in the next edition of the book he will rectify & mention the comments I said, he didn't, he re-issued the book as it is.

I also argued with someone a Takfiri just for sins, a sin is infidelity, like the one committing adultery doesn't do so and he's a believer thus he's a Kafir (infidel), so I argued with him: the punishment for the believer who becomes a disbeliever (leaves Islam) is death, and the adulterer's punishment is flogging, how does the punishment differ (when committing a sin only)?

The differ in ideology and thinking is long since the beginnings, after Osama Bin Laden (era) between (Ayman) Zawahri & (Abu Bakr) Maqdisi, which resulted in the schism among other organizations, but when we talk now about ISIS, if we compare them with Al-Qaeda, there's an essential difference between them..

There's no difference in ideology, only organizational difference..

- Then what is the future of ISIS based on?

Nabeel Naiem: As long as the youth are convinced with the Takfir ideology, ISIS will continue.

Secondly, ISIS is playing on 2 levels: Bashar Assad (Syrian president) is a Nusairi infidel & should be fought, and they use the Fatwas (religious judicial opinion) of Ibn Taymiyyah in regards with the Nusairi sect..

- Depending on feeding these thoughts will ensure its continuity, and maybe other interests..

Nabeel Naiem: And oil.. All sorts of feeding: intellectual, money, gears, munition, all of that.. As long as there are sources feeding this ideology ISIS will continue..

Bernard Lewis founder of Fourth-Generation Warfare said so, he said: we do not need trans-continent armies that would awake nationalism and they return to us as bodies like what happened in Afghanistan & Vietnam, but we should find agents inside the (targeted) country who will carry out the task of the soldiers, and we need a media tool to falsify truths for the people, and money to spend on them..

This is the Fourth-Generation Warfare, agents instead of soldiers..

- This is an alternative army, a war by proxy?

Nabeel Naiem: Yes of course.

- Between who (this war)? We are talking about armies on the ground, Al Qaeda and all what branches out of it, these armies work for the account of which battle and between who?

Nabeel Naiem: It works for the US Intelligence (CIA).

- Who it fights?

Nabeel Naiem: The regimes, they put a plan in 1998 called Clean Break (PNAC)..

- In Iraq, who is it fighting? Is it fighting Nouri Maliki (Iraqi PM)?

Nabeel Naiem: It fights both Sunnah and Shiites, when they entered Sammerra, Sheikh Ali Hatimi, head of Anbar Tribes said: ISIS entered Sammerra and killed a thousand Sunni in cold blood.. and it kills Shiites and kills Christians and kills whoever it faces, ISIS considers all people infidels and their bloods are free.

Who killed Imam Ali appropriated his blood, who slaughtered Hussein wasn't he a Muslim and from a sect claims they're Islamist?

All these have a shameless historic extension, the prophet PBUH called them Dogs of Hell, the prophet said: 'if I meet them I will kill them the same killing of 'Aad and Iram of the Pillars', those are the ones behind these ideologies, the ideologies of Khawarij (outlaws in Islam) who the prophet warned of them, and these will continue, as for ISIS, ISIS did not kill a single American. The opposition fighting Bashar Al-Assad fiercely for 3 years did not shoot a single bullet against Israel..

- What makes the close enemy, so to speak, in the ideology of these groups, the close enemy is these countries and its leaders, geographically speaking, this term as close enemy and far enemy exists in Al-Qaeda, you mentioned Israel which is not far geographically, what makes it far for them?

Nabeel Naiem: No, they don't say this, they say: fighting an apostate is a more priority than fighting the original infidel, close and far that's an old saying.. The apostate is us now..

- As per their understanding?

Nabeel Naiem: Yes, we are apostate, the Arab rulers are apostate, the Arab armies are apostate, thus fighting the apostate is a priority over fighting the original infidel, the Jew.

For instance, Issam Hattito, head of Muslim Brotherhood responsible for leading the battles against Bashar Assad, where does he reside? Is he in Beirut? Riyadh or Cairo? He's residing in Tel Aviv.

Ahmad Jarba, does he stay in Riyadh, Cairo or Tehran? He's moving between New York, Paris and London, his employers, who pay his expenses..

When Obama was exposed and it was learned that he's arming ISIS and Nusra Front with American and Turkish weapons said: 'We will stop the arming because the American weapons were leaked to Nusra..' Didn't Obama say that?

Leaked?! You discovered it was leaked after 2 years war?!

Nusra Front fighters are 10,000 and ISIS fighters are another 10,000, all 20,000 fighters using American weapons, and Obama claims after 2 years he discovers his (American) weapons are leaked to them?! Are you thinking we are fools?

When Obama Raised the Muslim Brotherhood

This is a conspiracy against the region, and I told you Netanyahu & Dick Cheney put the Clean Break plan in the year 1998, and it's destroying 4 countries, they start with Iraq, then Syria then Egypt then Saudi Arabia. It's called Clean Break plan (PNAC), well known.. Using radical groups in the region.

The legal case (former Egyptian president) Mohammad Morsi is being tried for, the case of communicating (with the enemy) and contacting Ayman Zawahri was an assignment of Issam Haddad by Obama in person on 28 December 2012, he was at the White House in a meeting with the CIA, he says in his confessions when interrogated by the public prosecution in the case..

- How did you get it?

Nabeel Naïem: These public prosecution confessions are published and are available.. Obama entered (the meeting room) and gave the CIA team a paper and left, they read it and told him: it's required by the Muslim Brotherhood to contain the radical groups in the region starting with Hamas & Al-Qaeda, so he called Ayman Zawahri through Rifa'a Tahtawi, head of presidential court, who happens to be Ayman's cousin from Rifa'a Tahtawi's phone.

Ayman (Zawahri) talking to Mohammad Morsi and Morsi says to him: Peace be Upon You Emir (Prince) of Believers, we need your people here in Sinai, and I will provide them with expenses, food and water and prevent security from pursuing them..

This was recorded and sent to the public prosecutor and this is what Mohammad Morsi is being tried for.

If you ask how I got to know this? I was in Channel 2 of Egyptian TV, and with me was General Gamal, 1st secretary of Egyptian Intelligence, who recorded the call and written it down and based on it the memo was written and handed to the Public Prosecutor.

The TV presenter asked him: Is it allowed for the Intelligence Services to tap the telephone of the president of the republic?

He replied: I'm not tapping the president's phone, I was tapping Ayman's (Zawahri) phone and found the president talking to him, telling him Peace be Upon You Emir of Believers, so I wrote down the tape, wrote a report and submitted to the head of intelligence..

She asked him: Did you inform the president? He replied: It's not my job, I do not deal with the president (directly), I deal with the head of intelligence and that's my limits.

She asked him: What did you write in your investigations and your own report, what did you write after you wrote down the tape (contents)?

I swear to God he told her, & I was in the same studio,: I wrote that Mr. Mohammad Morsi Ayyat president of the republic is a danger for Egypt's National Security.

So the ignorant should know why the army stood by the side of the people on 30 June, because the president is dealing with Al-Qaeda organization, and it's recorded, and he's being on trial for it now, and head of intelligence wrote that the president of the republic is a danger on Egypt's National Security.

This is the task of these groups in the region. When Obama said he supported Morsi's campaign with 50 million (Dollars), and when (Yousuf) Qaradawi said: Obama sent us 60 million Dollars for the Syrian 'Resistance', God bless you Obama, and we need more..

Did Obama convert to Islam or America became a Hijabi (wore a burqa, veil)? I ask Qaradawi: When Obama supports the Syrian opposition, is it to establish the Caliphate? And return the days of the Rashideen Caliphates? Or Obama converted to Islam or America became a Hijabi to support the Syrian opposition?

This is the work of agents (spies), exposed and debunked, and we don't want to fool ourselves and hide our heads in the sand, the region is under a conspiracy and it's to drag Iran to a war of attrition..

The first statement ISIS announced after the fight with Maliki it said: 'We will head to Najaf & Karballa and destroy the sacred shrines', they dragged the legs of Iran (into Iraq).

Iran said they'll defend the sacred shrines, it has to, it cannot (not defend them), this is what's required,

It's required to clash Saudi and Iran in the 100 years war, an endless war, it exhausts Saudi resources and its monies, and it exhausts Iran resources and its monies, like what they did during the days of Saddam in Iraq (with Iran). This is what we should understand, fight and stand against..

- You mentioned Egypt, Syria and Iraq, we see in all of it similar activities, and you also mentioned Saudi, is it in a coming phase Saudi will be targeted?

Nabeel Naiem: It was meant when Muslim Brotherhood lay their ground in ruling Egypt, problems would start in Saudi in 2016 and in the whole Gulf (GCC), this is not my words, this what the head of national security in United Arab Emirates Dhahi Khalfan said, he arrested those who confessed.

From where did Dhahi Khalfan get this? They arrested cells which confessed in details: If Muslim Brotherhood settles in Egypt, they'll start exporting problems to the Gulf (GCC) through their existing cells, and destabilize the

security of the Gulf, and this is what Dhahi Khalfan, head of national security in UAE said, not what I say.

- The circumstances and factors we saw in Cairo, Damascus and Baghdad, in the countries: Syria, Egypt and Iraq, there was a security vacuum and repercussions of so called Arab Spring, what vacuum we are talking about in Saudi Arabia? Where to find the circumstances and factors that would allow these organizations to enter the (Saudi) kingdom? Opening gaps? Where?

Nabeel Naiem: Look, they have a book being circulated in London titled The Rule of Al Saud, in this book they called the Saudi family as Kuffar (infidels), and that it is unjust, and it steals the monies of the Saudis, and it's an infidel doesn't rule by God's commands, and only applies Sharia law on the weak while the strong and the princess no law being applied on them, a book to educate the Saudi youths abroad to fight a war against the Saudi government, they also say: we call on the kingdom to become a constitutional monarchy, ie. the king doesn't rule, like the British queen, and this trend is being supported by America and Britain and the people working on this are residing in London, the nest of spies, all the spies of the world reside in London..

Their goal is to divide the region in order to achieve Israel's security.

Israel is a weak and despicable state, by the way, geopolitical, Israel is not a state, like Qatar, is Qatar a state? Qatar is only a tent and a man sitting it with his money and that's it..

There are countries like Iran, Saudi and Egypt, in geography it exists until the end of times, and there are countries called the Satanic Shrubs, it's just found you don't know how, like Israel and Qatar, it can vanish in one day and you won't find it..

So for Israel to guarantee its existence, all the surrounding entities around it should be shredded.. Kurds to take one piece, Sunnah take one piece, Maliki takes one piece.. each sect has their own piece just like Lebanon they keep fighting between each other, once they finish beating each other they drink tea then go for a second round beating each other..

- I want to get back to the factors in regards with the Saudi Kingdom, you mentioned what is planned for based on this ideology, and you know better, you have experience and you talk about examples and evidences, but how they will enter?

True there was a statement by the Saudi ministry of interior in last May claiming they dismantled a cell that follows ISIS of 62 members, as they stated, but how they'll enter (Saudi), what are the factors they'll be depending on to enter?

Nabeel Naiem: I'm telling you they are preparing for the revolution against the ruling family, that it's a corrupt family, this family steals the money of the Saudis, talks about the roots of the family..

- From inside the kingdom?

Nabeel Naiem: From inside the kingdom, and there are strong Takfiri members inside the kingdom, because as you know the difference between Wahhabi and Takfiri ideologies is as thin as a single hair, thus there are a lot of youths who follow this (Takfiri) ideology, add to it the feeding against the kingdom and its government and against the ruling family, it's very easy for him to blow himself up with anything..

- So it will be only based on these factors, we don't want to disregard an important point that groups of the ISIS are from the Gulf countries, and there are reports that the (governments of GCC) are turning a blind eye away from recruiting a number of them and sending them to fight in Syria and in a number of other countries including Iraq, as per these reports, could there be recruiting to use inside the kingdom? To move inside the kingdom?

Nabeel Naiem: Yes, yes, most are Saudis & the move will be like that but they were hoping for the Muslim Brotherhood government in Egypt to settle in power, that's why when (Saudi) king Abdallah supported the 30 June revolution (in Egypt), he did so based on the information he has of what will happen in the region

Why did he stand against the Muslim Brotherhood? Saudi was always containing the MBs, and if the MBs (Muslim Brotherhood) ever made money, it was from Saudi, and Mohammad Qotb, the father of all Takfir in the world, spent 40 years of his life in Saudi, he wrote a book called The Ignorance in the Twentieth Century, and he claims we're living in an ignorance more than the one in the days of the prophet PBUH, and Saudi hosted him and he was teaching in the university.. What made them go against them (MBs)?

Because the Muslim Brotherhood have no religion, no nation, not safe to be with them, they'll betray anyone.

- On the other hand, how to deal with such an organization and such an ideology?

Nabeel Naiem: The voices of the Islamic moderation very low, throaty, so to speak..

- We do not hear that loud voice who would stand against them, is it not convincing? Or need mediums?

Nabeel Naiem: No, the sapien voice doesn't have a vim, they're employees, they'd say let ISIS burn out with who brought it..

It doesn't have the vim to respond, doesn't feel the danger, secondly, Azhar in Egypt, which was leading the movement of religious enlightenment, is absented for the past 40 years, the reason for its absent for 40 years is the oil boom, and the voices of the Saudi clergy becoming higher than the Azhar clergy. Salafism was found in Egypt just to fight Azhar (Islamic University), then, the scholars duty is to respond to the ideology of ISIS, detail it and respond to it, scholars should come and say this is what ISIS is saying and the right respond is this.. and I sat with people who came from London to fight

in Syria, they sat with me and thanks to God they went from Egypt back to London.

They came to ask me, and I told them, let's assume that Bashar (Assad) died in the morning, would I be saying: Why God did you take Bashar while the war is not over yet? Who will replace Bashar?

They replied: (Ahmad) Jarba..

I said: Jarba is worth of Bashar shoes only.. They said: true. And they went back.

I told them you are going to fight in favor of America and Israel, will you be the one to rule Syria?

If you were the one who will rule Syria I will come and fight on your side, I swear by God I'll come and fight on your side..

But are you going to rule Syria after Bashar? He said no, I told him you are being used to remove Bashar and then Jarba, Salim Idress, Issam Hattito will come, all of those are being raised in the spy nest in London, it's not you who will rule.

- How can we differentiate between religious commitment and the national responsibility? Is there a problem in combining both?

Nabeel Naiem: Yes, yes, of course, there is a strong fault between the national responsibility and the religious commitment. I'll tell you what the General Guide (leader) of (Muslim) Brotherhood said? He said Toz (B.S.) with Egypt. This is their vision of the national responsibility.

And when the MBs ruled Egypt.. I'll give you one evidence for their despise to the nation (Egypt), in the last interview done by the Consular Adli Mansour, the interim president of Egypt with Mrs. Lamis Hadidi, the last question she asked him was about the background picture of the map of Egypt behind him, she asked him to tell her the story about this picture behind him..

He said: this picture was done by King Fouad a 100 years ago, we know that first was King Fouad, then King Farouq then Abdul Nasser, Sadat then Mubarak. He told her since King Fouad did this photo a 100 years ago and it's hanged there, it was removed for 1 year only, when the Muslim Brotherhood ruled Egypt. They removed it and put in the stores..

And they were working on a plot to concede 600 square kilometers to Hamas to resolve the Palestinian cause..

There is a link between the national responsibility and the religious commitment, and this contradicts with the understanding of the Salafists clerics, and I'll tell you the political theory of imam Ibn Taymiyyah, who people consider him the most strict imam, Ibn Taymiyyah was asked: if the nation's interest conflicts with applying Sharia, if we apply Sharia will lose the country, what to do?

He said: Maintaining the homeland is a priority over applying Sharia, because if you lose the country, where will you apply Sharia?

I'll give you an example to make it clearer, if someone is naked and will fall from the 10th floor, will you rescue him or get him something to wear?

Thus, to preserve the country is more important than to apply Sharia if there's interest conflict.

- And the interest now?

Nabeel Naiem: To preserve the nation.

- And in fact this is the most absented side between the politics, we called the national responsibility and..

Nabeel Naiem: This is because of ignorance, not knowing what's the national responsibility, there's no conflict between national responsibility and religious commitment, it's because those are ignorants the conflict is happening between the nation and the belief.

- This topic needs more discussing, especially in regards with the relations with regional countries, western countries, in regards with the nature of these countries, its backgrounds and its beliefs, we see relations are allowed with India and China, and when we talk about countries like Iran then the religious backgrounds are mentioned and this also might require further research if possible we can get a comment from you on it?

Nabeel Naiem: What I want to tell you, the efforts of all Islamic countries, Sunnah and Shiites, must combine, to eradicate these groups, because these groups are the claws of colonialism in the region, it's not on religious bases, there are members of ISIS who do not pray, so in Al-Qaeda, there are members who didn't pray a single kneeling, there must be a combination of the countries efforts to organically eliminate these groups by security and by intellect, disprove their ideology..

There must be a response to these groups and explaining its ideology is a stray ideology, contrary to the Islamic Sharia, and this is the ideology that the prophet warned from when he said about Khawarij (Outlaws in Islam):

'Newly in the religion, ribald in their aims, they go through the religion like how an arrow goes through the bow, if I meet them I will kill them the way Iram and A'ad were killed, they're the worse killers under the skies, blessed who they kill or who kills of them..' and he called them: 'the dogs of hell.'

- Thank you a lot sheikh Nabil Naiem, our guest here in the studio, founder of Jihad Organization formerly, and expert in the Islamist groups. – **end of interview.**

Yours truly kept saying: *'They fool you, they keep fooling you and they enjoy fooling you, not because they're smart, but because you're foolable'*, so I repeat it once again.

The Islamic State, the “Caliphate Project” and the “Global War on Terrorism”

The Al Qaeda legend and the threat of the “Outside Enemy” is sustained through extensive media and government propaganda.

In the post 9/11 era, the terrorist threat from Al Qaeda constitutes the building block of US-NATO military doctrine. It justifies –under a humanitarian mandate– the conduct of “counter-terrorism operations” Worldwide.

Known and documented, Al Qaeda affiliated entities have been used by US-NATO in numerous conflicts as “intelligence assets” since the heyday of the Soviet-Afghan war. In Syria, the Al Nusrah and ISIS rebels are the foot-soldiers of the Western military alliance, which in turn oversees and controls the recruitment and training of paramilitary forces.

While the US State Department is accusing several countries of “harboring terrorists”, America is the Number One **“State Sponsor of**

Terrorism”: The Islamic State of Iraq and al-Sham (ISIS) –which operates in both Syria and Iraq– is covertly supported and financed by the US and its allies including Turkey, Saudi Arabia and Qatar. Moreover, the Islamic State of Iraq and al-Sham’s Sunni caliphate project coincides with a longstanding US agenda to carve up both Iraq and Syria into separate territories: A Sunni Islamist Caliphate, an Arab Shia Republic, a Republic of Kurdistan, among others.

The US-led Global War on Terrorism (GWOT) constitutes the cornerstone of US military doctrine. “Going after Islamic terrorists” is part and parcel of non-conventional warfare. The underlying objective is to justify the conduct of counter-terrorism operations Worldwide, which enables the US and its allies to intervene in the affairs of sovereign countries.

Many progressive writers, including alternative media, while focusing on recent developments in Iraq, fail to understand the logic behind the “Global War on Terrorism.” The Islamic State of Iraq and Al Cham (ISIS) is often considered as an “independent entity” rather than an instrument of the Western military alliance. Moreover, many committed anti-war activists –who oppose the tenets of the US-NATO military agenda– will nonetheless endorse Washington’s counter-terrorism agenda directed against Al Qaeda. The Worldwide terrorist threat is considered to be “real”: “We are against the war, but we support the Global War on Terrorism”.

The Caliphate Project and The US National Intelligence Council Report

A new gush of propaganda has been set in motion. The leader of the now defunct Islamic State of Iraq and Al Cham (ISIS) **Abu Bakr al-Baghdadi** announced on June 29, 2014 the creation of an Islamic State:

Fighters loyal to the group’s proclaimed “Caliph Ibrahim ibn Awwad”, or Abu Bakr al-Baghdadi as he was known until Sunday’s July 1st announcement, are inspired by the Rashidun caliphate, which succeeded the Prophet Muhammad in the seventh century, and is revered by most Muslims.” (Daily Telegraph, June 30, 2014)

In a bitter irony, the caliphate project as an instrument of propaganda has been on the drawing board of US intelligence for more than ten years. In December 2004, under the Bush Administration, the National Intelligence Council (NIC) predicted that in the year 2020 a New Caliphate extending from the Western Mediterranean to Central Asia and South East Asia would emerge, threatening Western democracy and Western values.

The “findings” of the National Intelligence Council were published in a 123 page unclassified report entitled “Mapping the Global Future”.

“A New Caliphate provides an example of how a global movement fueled by radical religious identity politics **could constitute a challenge to Western norms and values as the foundation of the global system**” (emphasis added)

The NIC 2004 report borders on ridicule; it is devoid of intelligence, let alone historical and geopolitical analysis. Its fake narrative pertaining to the caliphate, nonetheless, bears a canny resemblance to the June 29, 2014 highly publicized PR announcement of the creation of the Caliphate by ISIS leader Abu Bakr al-Baghdadi.

The NIC report presents a so-called “fictional scenario of a letter from a fictional grandson of Bin Ladin to a family relative in 2020.” It is on this basis that it makes predictions for the year 2020. Based on an invented bin Laden grandson letter narrative rather than on intelligence and empirical analysis, the US intelligence community concludes that the caliphate constitutes a real danger for the Western World and Western civilization.

From a propaganda standpoint, the objective underlying the Caliphate project –as described by the NIC– is to demonize Muslims with a view to justifying a military crusade:

“The fictional scenario portrayed below provides **an example of how a global movement fueled by radical religious identity could emerge**.

Under this scenario, a new Caliphate is proclaimed and manages to advance a powerful counter ideology that has widespread appeal.

It is depicted in the form of a hypothetical letter from a fictional grandson of Bin Ladin to a family relative in 2020.

He recounts the struggles of the Caliph in trying to wrest control from traditional regimes and the conflict and confusion which ensue both within the Muslim world and outside between Muslims and the United States, Europe, Russia and China. While the Caliph's success in mobilizing support varies, places far outside the Muslim core in the Middle East—in Africa and Asia—are convulsed as a result of his appeals.

The scenario ends before the Caliph is able to establish both spiritual and temporal authority over a territory— which historically has been the case for previous Caliphates. At the end of the scenario, we identify lessons to be drawn.”(“Mapping the Global Future”. p. 83)
